Enclosed a letter addressed to your Excellency from Mr. Muhammad 'Abbas (Abu-al-'Abbas) the Secretary of the Palestinian Liberation Front (PLF) in which he put himself and his organization at the order of the President and the wise leadership.

He indicates in the letter to the necessity of creating terminology and epitomes that can disturb the United States, deactivate its hostile plans and disclose its hypocrisy and duplicity. In the top of these epitomes is destroying and attacking the American interests and mobilizing the Arabic public opinion against its existence in the Arab World, through non-Iraqi parties, and he is willing to discuss such things if the situation requires that.

For your information and we suggest the following:

1. Informing Abu-al-'Abbas our highly appreciation to his positive attitude and to delay this subject at the time being, especially that...

In the Name of God the Most Merciful, the Most Compassionate

**To: The Deputy in Charge of the Arab Liberation Movements Office**

Struggle greetings...

I feel that it is my duty in such critical and important conditions to express about what in my mind and conscious toward the current phase of the great combat pages of 'Um Al-Ma'arik. The phase of confrontation with the Americans and their representatives including their dirty role within the Special Committee, so that I might participate with my colleagues in Iraq, their fair combat to put an end for the oppressive siege.

The first thing I would like to stress in this simple letter is that I put my self and my organization members at the order of the President and the wise leadership. We are completely ready to proceed with any movement and participate in any action, could help the fair issue of Iraq at present and at the future. I could not hide my feelings which full of appreciation and pride about what I have noted, from the highly skillful of the President and the wise leadership in handling the political battle against the American devil empire, and the success in mobilizing the Arab and the International public opinion to the benefit of Iraq. Therefore, the matter become in contrary to the previous position and the USA become under siege and insolated while the efforts and struggle of Iraq is obvious around the world.

According to my estimation, the most important result for such positive change is the retrieval of the Arabic mentality to its conscious, and its accidental and spontaneous unity against the American haughtiness. That was accompanied with refreshing the Arabs common memory about the crimes and attitudes of the United States, toward the Arab nation in all countries, all stages and all aspects; linkage and parallelism with the crimes and the plans of the Zionist enemy. This great victory must be always maintained, developed, popularized and deepen in order to achieve the required wakefulness and to defeat completely the American-Zionist plan which threatening the entire national security existence.

I believe dear comrade that America will not forgive Iraq for the skillful political performance in this round of fighting, which caused harm and great political and spiritual loss for the United States, as America lost its dignity, the balance, credibility and influence that practiced in a form of power and force on the Arab leaders. This will push America to react, revenge, and adventure sooner or later, directly or by the numerous other hostile, plotting and hurting ways. Therefore, we have to be always ready to confront all possibilities and more worst.

The national mobilization plan inside Iraq is a smart, successful and integrated plan, without going far in details. My thinking is concentrated on the field of the national mobilization toward strengthening Al-Jihad concept against America and the Zionist alike. Firstly maintaining and escalating the impel that achieved due to the distinguished political performance of Iraq. Secondly, to create effective and efficient popular situation against the American existence and the American policy also against the Zionist entity and the Zionist policy which could help in stopping the faltering and collapse in the formal Arabic situation and opening new horizons for resistance and rising. Thirdly, to urge on execute a series of field activities against the American interests and policies.

The ideas in this field are multiple and do not exceed in general, the contents of the Mr. President initiative during his historical speech on anniversary of the 17-30 July Great Revolution, except what excreted by the recent variable, about the visibility of confrontation precisely with America and its fellow Tel Aviv. We have to think about all the terminologies, and epitomes, which disturbing America, neutralized its plan, bridling its aggression, disclose its hypocrisy and duplicity.

On the top of these epitomes is destructing the American interests, striking it, mobilizing the Arabic public opinion with great number of political, unionist, vocational and social powers, to put pressure on this direction. Claiming to finalize the military existence, eliminate the American guardianship, preventing the American intervention in the Arab counties affairs and stopping the stealing for the Arab fortunes.

Promoting such major epitome and the secondary relevant epitomes must be implemented through Non-Iraqi parties that have no relation with Iraq, indirectly or directly in order to avoid the load of a new hostile campaign on Iraq. The Arab yard is full of parties, organizations and persons who can play this role, politically and tactically as a matter of tentatively defense about the nation rights.

The talking in the circles and the occasions about threatening the American interests is important, useful and effective. Launching the hostile signs against America is important and useful as well. The important thing is to have an advantage for every action according to the circumstances, time, place and the party or the parties who are acting. Every thing in this regard is in need of planning, study and scrutinize. From our side, we are ready to discuss all such matters excessively and in details if the situation requires that. We can discuss together the current and future probabilities, as the enemy will not change their intentions even if their skins changed.

The history will put in records that the great Iraq has pricked a wedge in the coffin of the American Imperialism and the International Zionism.

America and the Zionism down  
Iraq and Palestine up

Yours, Comrade  
Abu-al-'Abbas  
The Secretary of the Palestinian Liberation Front
